# NEW WOOD-ULTREX 4 PANEL SLIDING FRENCH DOOR.

Introducing Integrity's NEW 4 Panel Sliding French Door. The latest addition to Integrity's lineup of Wood-Ultrex® doors, the 4 Panel Sliding French Door is available in standard and custom sizes up to 16' wide and 8' tall. The 4 Panel Sliding French Door opens homes to new design possibilities.

## INTEGRITY WOOD-ULTREX DOORS

All Integrity Wood-Ultrex Series doors feature a rich wood interior and an exterior built with the strength of Ultrex pultruded fiberglass. The ultimate combination of beauty and toughness, all Integrity doors can be customized to accent any home design with multiple exterior color choices, hardware styles and finishes, custom sizes and divided lite patterns. With a variety of screen and insulated glass options, Integrity doors are Built to Perform® in any climate with tough, low-maintenance Ultrex exteriors featuring the industry's best fiberglass finish. Sliding doors are available in 2, 3 and now 4 panel configurations; Inswing and Outswing French Doors are available in 1, 2 and 3 panel configurations.

## A COMPANY BUILT ON A FOUNDATION OF VALUES.

In 1994, Integrity was born from The Marvin® Companies' century-long heritage of service, craftsmanship and quality with a focus on all-out performance. We're proud to manufacture the most innovative fiberglass doors on the market, backed by top-notch customer support and incomparable value. When you choose Integrity doors, you support a small-town, family-owned and-operated company that supports the communities in which we do business.

**"At Integrity from Marvin Windows and Doors, we didn't just join  
the fiberglass window and door industry – we pioneered it."**

Susan Marvin  
President, Marvin® Windows and Doors

# ULTREX: QUITE POSSIBLY THE PERFECT BUILDING MATERIAL.

Integrity windows and doors are Built to Perform® with Ultrex®, our highly durable, state-of-the-art pultruded fiberglass with a patented finish that outlasts and outperforms vinyl, roll-form aluminum and vinyl/wood composites. We use Ultrex to manufacture windows and doors that endure the elements without showing age or wear. That's toughness.

## AAMA VERIFIED FIBERGLASS FINISH

Ultrex is the first and only fiberglass finish to be verified to any of AAMA's voluntary finish specifications for fiber reinforced thermoset profiles (fiberglass). The Ultrex patented acrylic cap finish is verified AAMA 623-10 and 624-10, and has passed the AAMA 625-10 lab-based performance test protocols; 625-10 outdoor weathering test protocols are in process. With the industry's best fiberglass finish, Ultrex resists fading, chalking, scratching and cracking to keep your project looking good for years to come.
